

## MISSOURI COMPROMISE RAP

yo yo yo

the year was 1.8.2.0 and i dont think we should be having slavery anymore  
the south is turning Missouri into a slave state  
and i think that is the place we need to emancipate

the south just dont get it  
get em out of the senate  
slavery is trying to spread to the west  
but dont let it  
the plantation economy just aint workin no more  
by the way my name is Tallmadge from the state of new york

now hold on just a minute i dont think i concure  
slave plantations in this nation are allowed as it were  
the south east cannot get as many votes as the north  
but now we have alabama which lets us even the score

slaves mean more money and not alot more  
and if you dont agree with us it can mean civil war  
so go ahead mister Tallmadge come on make a dicission  
but dont u mess with the slaves cuz this is our way of livin

but perhaps the founding fathers had a diffrent conclusion  
its all in black and white written in our constitution  
it says that there is freedom here for both me and you  
for each and everyman doesnt that mean black ppl too

im sorry mister Tallmadge you just cant understand there must be slaves in Missouri for  
cultivatin the land we need our slaves to grow tabbacoos cuz thats where the cash is if they dont  
keep pickin cotton our economy crashes

the admishion in missiri would unbalance the union and lead the norths oppinon all alone in  
seclusiuon

no it wouldnt cuz the unions also admitting main your just trying to do this for your personal gain

excuse me senetors how are you on this very fine day

who are you?

the house speaker and my names henry clay

whatch you want?

i wanna solve this and i speak for both sides  
i got it figured out in Missouri compromise

all we do is take the bills from Missouri and maine  
and we admit em both together so they both stay the same

but the south is having \_\_\_\_\_ they dont need anymore  
so north said pass the latitude 36. 30n

well i supposes all and all thats the fairest conclusion

i agree if the remaining states are free from intrusion

well okay i guess that sums it up i hope youve had fun but ill have to see you later be cuz this  
rap is done
